Short description:

Mini model of the Parthenon made in Morphi app. www.morphiapp.com

Description:

This is a mini, minimalist model of the Parthenon, the Temple of Athena (Ancient Greek Goddess of Wisdom) in Athens, Greece.

Depending on your printer, you may want to adjust the speed at various points during the print cycle. For instance, you may want to increase the speed slightly when you get to the layer above the columns as there is no support there and you may want to reduce the speed when printing the triangular prism at the top.

Print our model or make your own in the app. In Morphi, users of all skill levels can make 3D printable objects on the go using touch, without wifi or a mouse. Download the app for free for iPad and iPad mini on the App Store. <a title="Link: <https://itunes.apple.com/us/app/morphi/id833530351?mt=8>" href="https://itunes.apple.com/us/app/morphi/id833530351?mt=8" rel="nofollow" target="_blank"><https://itunes.apple.com/us/app/morphi/id833530351?mt=8> Coming soon for Android!
